Project Information

PROJECT LIMITS

Crawford Street

Main Street to Astrolabe Road

PROJECT OVERVIEW

01 **WATER INFRASTRUCTURE**

Replace the watermain and water services to property limits.

02 **DRAINAGE IMPROVEMENTS**

Add catch basins and review the existing storm sewer system.

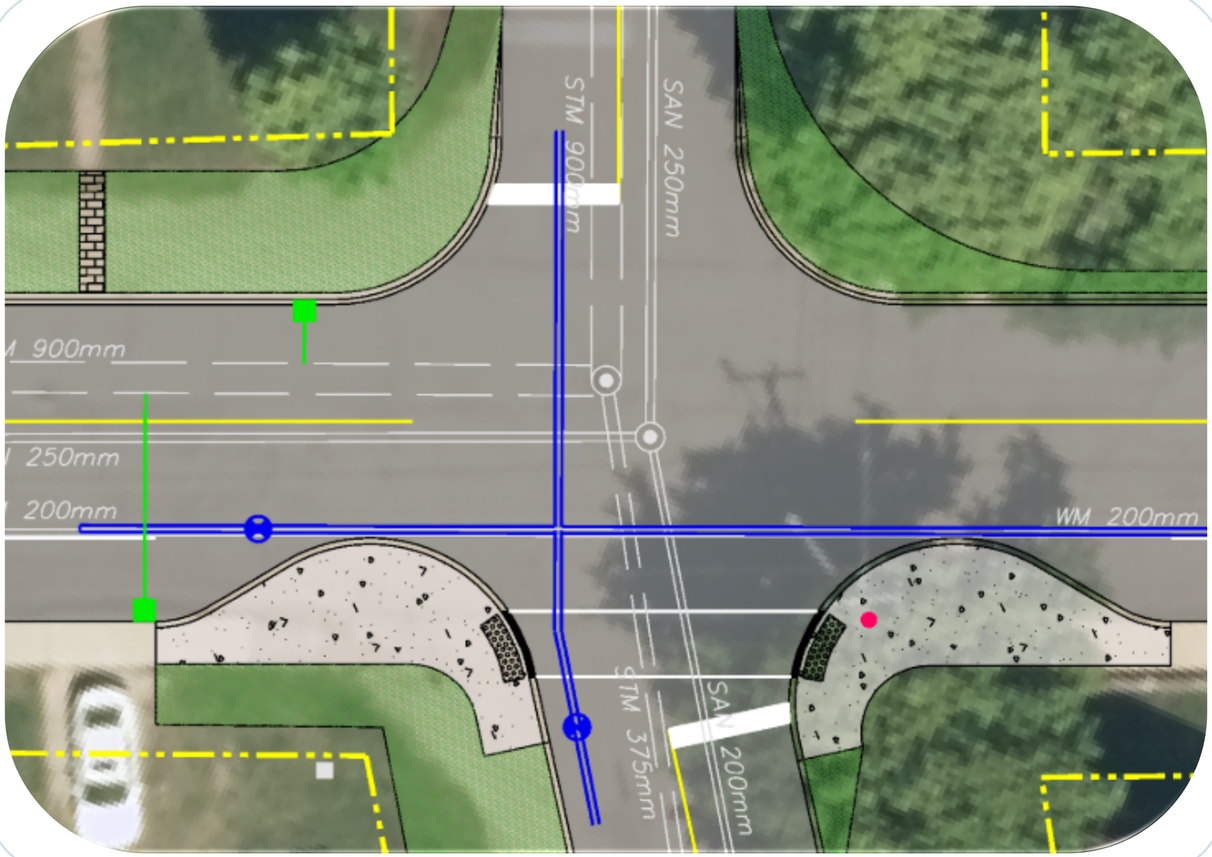
03 **ROADWAY IMPROVEMENTS**

Resurface the road and improve sidewalks, curbs and add protected parking.

Roadway Geometry Enhancements

Proposed changes to improve the street and pedestrian environment

PROPOSED LAYOUT



ILLUSTRATIVE CROSSING CONCEPT

1. **CURB EXTENSIONS** — Define protected parking areas
2. **SHORTER CROSSINGS** — Reduce pedestrian crossing distance
3. **ROADSIDE SAFETY** — Improve intersection conditions

Typical Construction Stages

General sequence of work; individual activities may overlap

1 **SITE PREPARATION**

Surveys, tree protection, erosion and sediment controls, temporary drinking water installation.

2 **UNDERGROUND WORK**

Mainline watermain and storm sewer installations.

3 **WATER SERVICES**

Replace water services to the property line.

4 **ROAD & SIDEWALKS**

Concrete curbs, sidewalks and asphalt resurfacing.

5 **REINSTATEMENT**

Restore affected driveways and landscaping.

Construction Impacts

Access, parking and pedestrian movement

01

DRIVEWAY ACCESS

Short-term driveway restrictions may be required. A clear walking route to each property will be maintained.

02

ON-STREET PARKING

On-street parking will be unavailable within active construction areas. Signage will be posted at least 24 hours in advance to notify residents of parking restrictions.

03

PEDESTRIAN ACCESS

Access to homes will be maintained throughout construction. Every effort will be made to provide accessible routes through or around the work zone.

Collection Services	Garbage and recycling collection will continue throughout construction; however, the Contractor may relocate bins to a collection point. Residents are asked to clearly mark their address on all containers.
Accessibility accommodations	Contact the project team if you require a disability-related accommodation during construction.

Construction Impacts

Noise, landscaping and private property, Vehicle Traffic

04 — 7 AM–7 PM

NOISE

Activity on this project will generate general construction noise, typically on weekdays between 7 am and 7 pm, and possibly some weekends. Overnight work will only be permitted if necessary and residents will be notified in advance.

05

PRIVATE PROPERTY LANDSCAPING

Any disrupted landscaping features, driveways and/or walkways will be reinstated.

06

VEHICLE TRAFFIC

A minimum of one lane will be maintained for local traffic throughout construction; however, temporary delays and disruptions may occur during active construction due to traffic control and flagging operations.

Do you have lawn irrigation or any special landscaping features?

Please notify the project team so it can be flagged before construction.

Temporary Water Service

How water service is maintained during watermain reconstruction

Temporary water connections

Properties will be placed on temporary water service while the watermain is replaced.
Short water disruptions may occur throughout
Residents will be notified at least 24 hours in advance of any planned water service interruptions.

Smaller temporary hose connecting from the main hose to the outside tap

Large temporary hose connected to the watermain (buried under driveways)

Private fire suppression/sprinkler systems may be affected. If your building has one, notify the project team and consult a fire protection service provider.

Project Schedule

Anticipated design and construction timeline

DETAILED DESIGN

1

January
2027

TENDER

2

February-March
2027

CONSTRUCTION START

3

Spring
2027

CONSTRUCTION COMPLETE

4

Fall
2027

Schedule is subject to final design requirements, the tender process and weather conditions.
