PREFACE

This Emergency Response Plan was designed and developed for the Corporation of The Township of Whitewater Region to assign specific duties and responsibilities and to direct the actions of key officials in the event of an emergency.

For this plan to be effective, it is imperative that all members of Council and all senior municipal employees take responsibility for familiarizing themselves with the plan, procedure and protocol and that every official be prepared to perform all assigned duties and responsibilities in the event of an emergency.

Regular information and training sessions will occur to ensure the roles and responsibilities developed in this plan are kept current and familiar. Department heads should similarly review and keep up to date their own roles and responsibilities to ensure effective response in an emergency.

It is the responsibility of the Township's assigned Community Emergency Management Coordinator (CEMC) and Alternate Community Emergency Management Coordinator to make certain the Plan is reviewed and updated on an annual basis. Upon each review of the Plan, it will be brought to Council for approval.
