

**T O W N S H I P
of
WHITEWATER REGION**

POLICY NAME:

**Maintenance Flushing of
Municipal Water Lines**

DEPARTMENT:

Public Works

DATE ESTABLISHED:

July 24th , 2003

Implemented, July 29th /03

DATE REVISED:

***THIS POLICY IS TO BE USED IN CONJUNCTION WITH
THE DE CHLORINATION ACTION PLAN***

The Water Lines in the Township of Whitewater Region will be flushed once per year, or as necessary to ensure the safe quality of our drinking water. The water will be flushed out of the lines by opening fire hydrants.

- 1/ **Notice** must be given to the users of each system, this will be scheduled by the Superintendent of Plants.
- 2/ The plants department must be contacted before each stage so the operators can ensure the appropriate pumps are operating.
- 3/ Lines are to be flushed starting at the hydrants close to the Plants and then moving down stream to the end of the lines.

Hal Johnson
Public Works Supervisor

APPROVED DATE: June 2nd, 2004

MOTION NUMBER: 2004-157
