

Tender # TR#24-10-6

There have been a few changes to the truck tender

1. We have moved the closing date to July 30th, 2010 at 1pm opening to take place at this time
2. Page #3 axle weight was changed to 22,000 lbs from 20,000 lbs
3. Page #17 wording for the quick attach harness has been changed from "bolted to cheek plate" to "pinned to cheek plate and cheek plate be bolted to frame"

Thank you

Hal Johnson
