Illegal Dumping

It is becoming common to see piles of garbage, household items, or construction waste dumped by the side of the road, the forest, or in non-designated dumping sites. Do your part by securing your load as you travel to your destination (landfill site) and disposing of your garbage properly.

Meetings of February 7 and 21, 2018

The Arthur B. Cobb Building

Council considered a commemorative naming request in honour of Mr. Cobb for the Tourist Booth at Veterans Memorial Park in Cobden.

Arthur B. Cobb was involved in municipal politics and served as a Council Member in the former Village of Cobden and Township of Whitewater Region between 1991 and 2010. Mr. Cobb was a longtime resident of Cobden and a driving force behind the establishment of the Tourist Booth, which was constructed in the 1990s.

He devoted valuable time as its coordinator working to ensure its effective operation and to maintain a dedicated volunteer program.

He was involved with every aspect of the booth, including promotion, scheduling, maintenance, and materials. He passed away on November 26, 2016 in his 88th year. Arthur B. Cobb was the only son of the late Nigel and Marguerite Cobb and husband of Beverley Cobb, nee Crowell, also a very active volunteer.

Fire Master Plan

The Report prepared by Dillon Consulting Ltd was adopted as a guiding document in defining key strategies and in the revision of the Fire Department's plans and procedures. The current five station model was formally approved and will be maintained. The Fire Chief/CEMC was directed to proceed with recruitment of additional firefighters with an emphasis on daytime/ weekend response and Westmeath & Foresters Falls Station.
