

**PUBLIC NOTICE**

**REHABILITATION OF CAMERON STREET, EARL STREET, AND VERA CRESCENT**

August 31, 2022

Dear Resident,

**Water Outage**

H&H Construction is approximately about one week behind their original schedule. The storm sewer and road base installation was originally to be completed by the end of August.

The new watermain installation is one hundred percent completed and commissioned. Further water shutdowns are not expected.

The storm sewer installation has been completed on Cameron Street from Beachburg Road and Malcolm Street with two catchbasin leads are remaining. The storm sewer work will continue from Malcolm Street to Earl Street.

**Beachburg Public School**

H&H Construction, Jp2g and Township staff have been working with the Renfrew County District School Board to limit the distribution of the Beachburg Public School operations.

Discussions regarding the school operation for bus and student drop off/pickup have been top priority at each of the construction project weekly meetings. A pedestrian/ traffic control plan has been created and signage will be installed to guide parents, students, bus drivers and residents.

Additionally, a temporary granular sidewalk will be installed this week along with steel fencing to separate pedestrian and vehicle traffic.

**Cameron Street Condition**

Jp2g and Township staff have been working with contractor to improve the temporary roadway last week. H&H construction did place new granular material but with all the rain that Beachburg has received, the road has not improved.

Today, Jp2g and Township staff have directed H&H construction to improve road immediately as the road condition is not acceptable.

H&H construction has committed starting first thing tomorrow morning as torrential rainfall was received this afternoon. They will be capping the temporary roadway and installing a temporary sidewalk with new granular material on Cameron Street.
