

October 05, 2021

Dear Resident,

### **Project Update**

Thomas Cavanagh Construction Ltd. are continuing the rehabilitation of Olmstead-Jeffrey Lake Road. Blasting has been completed on the project and new sections of the roadway are currently being built.

Starting today, double surface treatment is being applied from Acres Road towards Highway 17. The next section will take place between Magnesium Road (CR 48) and 587 Olmstead-Jeffrey Lake Road.

The next couple of weeks will see installation of guide rails, topsoil, and seed.

### **Road Closure and Traffic**

Traffic delays can be expected as lane closures and flagging operations will be taking place daily. Road closures and detours are still expected during the construction. Road closure can also be viewed on Municipal 511 [www.municipal511.ca](http://www.municipal511.ca).

### **Questions and Concerns**

Council and Township staff would like to thank you for your patience with the construction project. If you have any concerns related to the project, please let us know by contacting the project manager noted below.
