

Return of Inhabitants required to perform Statute Labour in the 2^d 3rd Division of the Township of Westmeath, for the year 1864. Wm Wright Pathmaster

Numbers	Names	No of days Labour	No of days performed	No of days unperformed	Total days	Remarks
1	Saml. Wright	3	3			His remarks were few but our wants are many. This division for the number of days has done a vast deal of work in comparison to other divisions. Still there is a vast deal more needed before the roads can be called passable? If the Council would forward the taxes paid on No 2, 3 & 5 on the 4th concession fronting L. Lake & 11 on the 9th con for Statute labour it would be a great help to the roads in this division. It adds as much to it as they please as much as they could & it would be a greater help to them. This division is somewhat contentious about where they would work they all think they ought to work at their own doors no odds about the 1 st 1 st he cant do as he pleases but to put a stop to this it would be a great peace maker in this division where roads are want to be made so had, If the Council would give the Clerk orders to put into the list the following or something of the like (A. C. to give the Path Master full power to take the men to where he thought the roads needed. The labour most according to his judgment) It is very hard to get some of them to perform their labour on any terms but if the Council would use them up to the point
